Petrol discount continues also in 2014

Pubblicato: Giovedì 19 Dicembre 2013

Another **€10 million has been allocated for petrol discounts**, to try to reduce the gap between the Swiss and Italian prices in the border areas. **The Regional Council has taken measures** against people crossing the border to fill up, and has approved an amendment that allocates, **for 2014, an additional €10 million**, on top of the funds provided by the State, for petrol discounts in the **areas that border on Switzerland**.

The new allocation is necessary, and it continues the measure that last September doubled the discounts provided, into 2014.
