## Emirates will continue to fly from Malpensa to New York

**Pubblicato:** Venerdì 9 Maggio 2014

The **Council of State** has sided with Emirates, [which has previously been stopped by the TAR \(Regional Administrative Court\) of Lazio](#), which had annulled the [authorization issued from the ENAC \(the Italian Civil Aviation Authority\)](#) to the airline company to work on 7 new frequencies of flight on the Dubai-Milan Malpensa-New York route for a period of 18 months. At this point Emirates can continue to fly on the **Milano Malpensa-New York** route until the final decision on the matter.

This decision is very important above all in view of the **Expo 2015**, which, according to the forecasts, will bring **20 million visitors** from all over the world.
