Let's go to breakfast with the world

Pubblicato: Lunedì 27 Aprile 2015

Travel around the world is amazing. It allows to get in touch with different cultures and it changes our mind. We become more open-mindedness. Food represents a key factor of our identity. Not by chance “Feeding the Planet, Energy for life” is the core theme of Expo Milano 2015. For this reason, 141Expo Project wants you to play posting on your Instagram account your “worldwide breakfast” using hashtags #141breakfast #country (ex. #141breakfast #Italy).

It will be fun travelling around the world with photos telling something about food but also about your lives.

And now, what are you waiting for? **Let's have fun together!**
