Do you want to go skiing without a car? Here come the “snow trains” for Lombardy’s ski slopes.

Pubblicato: Martedì 18 Dicembre 2018

Would you like to go skiing in the mountains, but you don’t want to drive or organise the car journey? There is a solution: again this year, in Lombardy, you can make the most of **integrated packages, promoted by Trenord, which include the train fare, shuttle bus and ski passes.**

In fact, **Trenord** offers a number of **packages specifically for skiers, at favourable prices,** to promote sport and fun.

There are currently four destinations that can be reached “by train”:

APRICA, skiing in the heart of the Bergamasque Alps;

MONTECAMPIONE, the beating heart of the lower Camonica Valley, with its panoramic view over Lake Iseo;

PONTE DI LEGNO, 100 km of slopes, a paradise for snow lovers;

VALMALENCO, a holiday of outdoor activities and ancient traditions.
