Discovering the Via Francisca, with Cristina Menghini

Pubblicato: Lunedì 15 Aprile 2019

Two days of hiking, to discover places close to home that you think you know, but that will enchant you when you look at them differently.

Next Saturday and Sunday, the 13th and 14th, after hiking almost the entire length of the Via Francisca on the Italian side, **the guide Cristina Menghini** is setting off again to accompany a group on the first two stages, from Lavena Ponte Tresa to Sacro Monte.

The average distance is 28 kilometres in total, and does not require a great deal of preparation. It will be a real taster for anyone that wants to have a lovely experience. The walk will give those who are already hikers an opportunity to get to know another route, and those who have never hiked to discover this pastime in the company of others.

In short, our province is beginning to give real opportunities to anyone that wants to start hiking. Cristina suggests a fully organised weekend.
